Step by step assembly instructions

Step 1

With 2 people, locate the legs (part 2) and octagon wooden column (part 4) with wood dowel (part A) as shown below on a soft, flat surface near where the unit will be used. Insert the flat washer (part D) and spring washer (part C), then screw in the hexagon nut (part E) by hand as shown below.

Step by step assembly instructions

Step 2

With 2 people, carefully align the assembled leg frame with 4x corresponding wood dowels and push down to top panel.

Step 3

Secure the legs using the flat head bolts (part B) with spring washer (part C), flat washer (part D) and allen key (part G).

Step by step assembly instructions

Step 4

Fully tighten the all hexagon nuts (part E) in a clockwise direction using spanner (part F).

Step 5

With 2 people, carefully turn the product over and place in position. Do not drag the table when moving, must be lifted to prevent damaging the legs!

When using this product, we advise applying the felt pads (part H) to the bottom of the legs to prevent damage to the floor and the product.

Step by step assembly instructions

Step 6

Locate the octagon wooden cover (part 3) to be on the top of octagon wooden column (part 4) as shown below.

Ensure all bolts and hexagon nut are fully tightened before use.

Please note that the octagon shape between the wooden cover (part 3) and the wooden column (part 4) should align.

Care and Maintenance

Wood furniture

- Wood displays different grain patterns depending on which way they cut - for example, the 'medullary rays' which can appear as a mark of good quality timber - these are just characteristics of the natural beauty of the wood. Some furniture is also deliberately aged and rustic.
- Wood veneers also allow distinctive patterns to be created on flat surfaces, such as table tops and drawer fronts by the way the slivers are arranged.
- All timber surfaces will change colour and mellow over time. New furniture will initially vary in shade from items that have been previously purchased.

How to care for your wood furniture

- Furniture with a hard lacquer, wax polish or painted surface should be dusted with a dry cloth.
- Spray polishes are best avoided as they contain silicones which may spoil the furniture's surface by building up over time.
- Make sure all surfaces are protected from heat and liquids by mats and coasters. Wipe up spills immediately and ensure that a mat or pad is placed under paper if you are writing.
- Our furniture will endure most temperatures in the home but it is best to avoid placing furniture next to heat sources such as radiators or fires. Be particularly careful with solid wood as the lack of humidity caused by central heating can cause damage such as warping.

Safety instructions

- Never drag furniture when moving it, always lift it.
- Do not sit or stand upon this product.
- Periodically check all fixings to ensure none have come loose and re-tighten where necessary.
- Please take care when handling or moving the furniture, careless handling may cause damage or injury.
- Furniture can be dangerous if incorrectly installed. Assembly should be carried out by a competent person. No liability will be accepted for damage or injury caused by incorrectly installed or assembled furniture.
- It is recommended that before moving heavy objects to a new location they are completely dis-assembled to avoid personal injury or damage to the furniture. Please be careful to retain all fittings when doing this.

PLEASE READ!

This veneered product top has a natural open grain finish. Please read the care guide thoroughly. We recommend using mats and wiping up spilled liquids immediately. Avoid placing plant pots or vases without waterproof mats to prolong the life of this product.
