

Instruction

Tool needed: nail, hammer

Steps:

Step 1	Confirm the position of hanging hole on the back of the product.		Step 2	Stand the product upright on the floor.	
Step 3	Use a nail to align with the hanging hole on the back of the product. Mark the wall at a position 1–2 cm higher than the hanging hole.		Step 4	Move the product away.	\

Step 5	Hammer the nail into the marked position, leaving about 1 cm of the nail exposed.	
Step 7	Press the product firmly against the wall.	

Step 6	Align the product's hanging hole with the nail and hang it on the wall.	
Step 8	Gently shake the product left and right to check if it is securely mounted.
