**METROPOLIS**

# METROPOLIS

The subway tile in an artisanal key.

Metropolis reinterprets the classic subway tile from a contemporary perspective, incorporating the value of handmade work. Its glazed pieces show a variation of tone within each surface, with areas where the glaze becomes more transparent, enhancing the depth and unique character of each piece.

The collection is made up of three formats -10x10, 7.5x15 and 10x40 cm-, available in a plain version or with beveled relief and a soft rounded finish, allowing multiple combinations between flat and volumetric surfaces.

The color palette provides elegance and personality: a warm white, a dark and deep blue, an intense red and a sophisticated caramel, tones capable of transforming spaces with a timeless and refined aesthetic.

Metropolis recovers the essence of the New York subway, but with a more expressive and artistic language, becoming a versatile proposal for interiors with character.
