

Installation instructions

- Before installation it is required to ensure that the item has no defects occurred while transporting and all component parts are available. Claims for defects caused while transporting, damaged surfaces and absence of component parts are not accepted after installation
- It is required to follow installation requirements specified in the instructions.
- Installation tools are not included into component kit.

ATTENTION

Use the item as intended. Do not flush metallic objects, do not pour hot water and remnants of friable solutions.

We recommend to use sealants for purposes of hygiene and non-ingress of moisture under ceramics. Auxiliary materials (silicone, sealants, etc.) are purchased separately.

Product maintenance

Glazed surface is cleaned easily. Please, use soft cloth or sponge, soap solution and water for easy cleaning. Wipe surface with dry cloth after cleaning. Please, use reduced impact detergents for deep cleaning, following the directions of shop instruction. Please, do not use sponges with abrasive surface and solvents that damage surface. Damages resulted from incorrect maintenance are not warranty event.

The installation should be carried out by a qualified professional.

Manufacturer reserves the right to introduce change of component parts which has no effect on appearance and functionality of the item, keeping declared warranty period.
